

Portman PH7044 edge pull handles are unique and comprise the latest laser cut stainless parts allied with an unrivalled range of aesthetic finish options.

All flush pulls are designed to be screwed and bonded into the door leading edge.

Parts;

PH7044: 100 x 53(63) x 44.5mm Door edge pull (Ea)

Finishes:

SSS: Satin stainless steel (320 fine grit)

PSS: Bright Polished stainless steel

PNP: Slightly softer and whiter in colour than PSS, nickel plate also has self levelling properties which make for a slightly smoother final finish

SNP: Satin nickel plate

WHI: White Powdercoat RAL 9003 semi gloss, other RAL colours and gloss levels are available, please contact the sales office

NST/DFM: Dead Flat Matt black ppc.

ABR: Antique Brass, Electrobrass plated vertically distressed giving high and low lights, lacquer sealed.

SBL: Satin Brass, Lacquered

PBL: Polished Brass, Lacquered

OBZ: Old Bronze. Electrobrass plated artificially patina'd and relieved giving high and low lights, lacquer sealed.

DBZ: Dark Bronze. Electrobrass plated heavy patination and gently relieved giving rich dark brown/black colour, lacquer sealed

Not suitable for use in Portman Fire rated pocket door kits
